# DfRefactor - Suggestion #151

## Include filenames of changed files in the log file

06/11/2019 05:22 PM - Wil van Antwerpen

**Description**

On behalf of Dave:

It would be cool if the log included the source name that it has fixed.

```

**History**

**#1 - 10/11/2019 10:37 AM - Wil van Antwerpen**

a subheading in the log indicating the source file title would help this particular old fart remember where he was in a multiple-file, multiple refactor
exercise.
