#### Description

Albin reported seeing an issue with the reindent logic when running it on code like this:

```
[Found] Begin
  Repeat
    Lock
    Delete Fritext
    Unlock
    Find gt Fritext by Index.1
    [Found] indicate Found as Fritext.File_no eq 71
    [Found] indicate Found as Fritext.Record_no eq O_ordart.fritextid
  [Found] Loop
End
```

As you can see the loop isn't processed as closing the scope block.

It should have been processed like this:

```
[Found] Begin
  Repeat
    Lock
    Delete Fritext
    Unlock
    Find gt Fritext by Index.1
    [Found] indicate Found as Fritext.File_no eq 71
    [Found] indicate Found as Fritext.Record_no eq O_ordart.fritextid
  [Found] Loop
End
```

Code to reproduce this issue can be found here:
