Target version:				

Description

I have run, only, "Calc/MoveInt" function and this is the report.

```
Created by: Automated Source Code Refactoring for DataFlex -- 12/08/2022 11:55:00,097
Total number of files changed: 0 out of 1116 Files.

Statistics:
===========
Replaced to use 'Move' command 170
Process completed. Elapsed Time: 00:03:16.38
```

So, it replaces 170 occurrences but not file is being modified. I have verified it with the help of the version control system.
