

The Hammer - Feature #32

Bug # 56 (Closed): Scilexer - make scope keywords configurable

Make scope words configurable

03/27/2017 12:27 PM - Wil van Antwerpen

<b>Target version:</b>			
<b>Description</b> <i>sergey</i> It should be possible to extract/set these sets from DF or use default if not done.  Scopes should be configurable as well. At least in Codemax style:  Begin   Procedure... End   End_Procedure  Understand there is an issue for extra logic. For example, Begin will not start from the most first position and For is another example. But...  However, if we can make it an option (SciLexer/CodeMax), this would be great for sure (via options):  Code Processor: SciLexer CodeMax
