

The Hammer - Bug #46

CM: Using enter on a suggestion list inserts unwanted enter in text

04/08/2017 08:15 AM - Wil van Antwerpen

Target version:			
Description			
When you select from a suggestion list using the key, you'll end up with more newlines as you bargained for. This might be tricky to get to work correct as enter should behave as enter if a suggestion list is present but not navigated.			
This is codemax only, so low priority.
