###### *Description*

Opening of the FMAC file of a Visual DataFlex version in the hammer will result in high memory usage which ultimately will cause the hammer to crash

###### *Steps To Reproduce*

- File >> Open VDF Standard Package
- Navigate up and go to Visual DataFlex nn\Lib folder
- Select FMAC
- Wait and watch the memory usage in the windows task manager slowly grow

not sure if you have to jump around in the document

administrator ~0000028

The parser has been augmented to play nice with FMAC
