<b>Target version:</b>			
<b>Description</b>			
See image, the lexer sees it as an unclosed string, which is of course not true.			
<b>Subtasks:</b>			
Bug # 52: SciLexer.dll - EOL Comment after embedded quotes is seen as EOL comment			<b>Closed</b>

History

#1 - 06/24/2017 05:26 PM - Wil van Antwerpen

- Status changed from New to In Progress

The problem here was that a string open and close could be by either a single quote or a double quote. Same for closing the string.

So "abc" as well as 'def' where both seen as valid strings as the code did not track if the string literal was started with either a single or double quote. We are now tracking that in line state.
