Description

The Month and Day values are reversed with USA dates. I noticed this in the Header Template, but I guess the revision entry would be the same.

I assigned myself to this bug, if that is ok.

History

#1 - 07/21/2017 10:16 PM - Todd Forsberg

- File cEditorEdit.pkg added

- Status changed from New to Resolved

attached updated file.

// Date parts.

Sysdate dToday sTH sTM sTS

Move (DateGetDay(dToday))   to sDD

Move (DateGetMonth(dToday))   to sDM

Move (DateGetYear(dToday))   to sDY

Move (Right("00"+sDD,2))   to sDD

Move (Right("00"+sDM,2))   to sDM

#2 - 07/21/2017 10:42 PM - Wil van Antwerpen

- Status changed from Resolved to Closed

Checked in on your behalf. The fix is in next build.
