The Hammer - Bug #91

CODEMAXEDIT.INI changes and an old preferences file

Description

This is a HUGE pain.

When somebody decides to unzip over an older version of the hammer (even hammer 3 preview or beta) and the codemaxedit.ini file was updated to fix something then that fix might never arrive.
While it would be fantastic if we can preserve a limited number of old settings, at this moment I think that whenever a newer codemaxedit.ini arrives renaming the old preferences file would help.
