

The Hammer - Bug #93

OEM Line Draw characters are not correctly drawn in the editor

09/18/2017 09:21 PM - Wil van Antwerpen

Target version:	
Description	
Line draw characters are displayed differently. eg:	
<pre>/vSplashPage +-----+ KirkNet Point of Sale Version _____ Please wait While the Program initialises... In This Version: 1 Customer Information Upgrade continued 2 Allow COMPUTERNAME as TERMID +-----+ /*</pre>	
Incidentally, I've remarked elsewhere about notepad++ not treating the linedraw character set the same way as the Studio, but Hammer doesn't either (see above). The difference being that Hammer doesn't appear to actually mess up said linedraws.
